

Serenity price list

effective march 1, 2012

NOTES ON ORDERING SERENITY

Designs in Serenity are available in any of 24 color blends. Each blend offers a combination of glass and stone tiles. Pricing depends on the blend chosen. Metal accent tiles can be substituted for glass in any design for no additional charge. Please see the blend chart at the top right of each page to determine the price group for your chosen blend.

Please be sure you understand the aesthetic intentions of the consumer and functional limitations of the stone and glass mosaic before placing an order. The location of installation, choice of material, and expectations of the consumer will determine the appropriateness of a given design.

Please request a color sample for approval before placing an order.

Serenity is special Order. A 100% non-refundable deposit is required.

Production time for Serenity ranges from 6 to 8 weeks, depending on the design chosen.

Prices are subject to change without notice. Stone and glass are natural products, and color variations are a normal occurrence. As a result, the finished product may not exactly match the sample.

Please contact a sales representative for a made-to-measure service quote, if applicable.

TABLE OF CONTENTS

Serenity is a collection of 83 mosaic designs available in any of 24 color blends. 72 coordinating border and corner patterns, 12 decos, 13 profiles, and 5 metal accent tiles are also available.

The Price List is arranged in the order of the Serenity catalog. Please refer to the index to search by product number.

Price per square foot or unit depends on the color blend chosen. Metal accent tiles can be substituted for glass in any design for no additional charge. All designs, borders, corners, and decos must be purchased in units — note that design pricing is given by the square foot, while borders, corners, and decos are priced by the unit. Minimum order for designs and borders is 10 units. Minimum order for corners and decos is 4 units.

Terms and Conditions**Terms and Conditions 2012**

All sales made to Artistic Tile & Stone customers are subject to the following terms and conditions. These terms shall apply to sales of all products featured in our current catalog and price lists, in addition to any special order.

ORDERING PROCESS

- To order products from Serenity Collection, please contact our Customer Service Department located in San Carlos, CA. Visit our website artistic tileandstone.com for further information.
- All Serenity products are made to order. Please allow for proper lead time, as indicated in the price list.
- All orders for Serenity products will begin production after receipt of a complete purchase order, signed approval sheet, and 100% nonrefundable deposit.
- Customer must request and receive written confirmation from Customer Service to guarantee their order will ship sooner than the standard processing time.

- The color and variation of our products have been represented in our catalog as accurately as possible. Due to the nature of illustration, photography, printing and the variations found in natural stone and glass, there may be some variation to the actual product. Please contact Sales to request physical samples prior to the purchase of any of our products.

- A \$5 packaging and handling fee will be added to every parcel order.
- A \$20 packaging and handling fee will be added to every freight order.
- A \$25 packaging and handling fee will be added to every expedited order.
- Cancellations will not be accepted unless authorized by management, and will result in forfeiture of deposit.

CONDITIONS OF SALE

- Artistic Tile & Stone, Inc. does not warrant any product for any specific use nor any installation procedure or maintenance practice.
- Artistic Tile & Stone, Inc. reserves the right to change prices, product offering or terms and conditions without notice.
- Customers are responsible to inspect material and ensure all items have been received in proper condition immediately upon receipt of order.

RETURNS

- Due to the custom nature of Serenity Collection products, returns will be accepted only under extraordinary circumstances. If material needs to be returned, a Return Material Authorization (RMA) must be obtained from Customer Service as authorized by management.
- Artistic Tile & Stone, Inc. will not accept any returned merchandise freight collect.
- It is our strict policy that we will not pay for freight to return merchandise unless authorized by management.
- All returns must be received in the condition they were sent. Credits will not be issued for damaged or used merchandise.

SAMPLE PROCEDURES

- Full size samples are available upon request. Sample pricing should be requested.
- Product for showroom displays is also available at the sample discount rate. Please contact Sales for more information.

FREIGHT TERMS AND RESPONSIBILITIES

- Standard freight terms are FOB shipping point (origin), freight collect. All other terms must be negotiated and approved prior to shipment of order.
- For all freight collect, prepaid, or otherwise negotiated shipments, title and control of goods passes to the buyer when carrier signs for goods at shipping point (origin).
- All shipped orders require that the buyer file the freight claim for any product received with transit damage or any shortage.
- Damaged freight should be handled by the customer via freight claim with the customer's carrier.

GENERAL PRODUCT INFORMATION

- Limestone and marble are products of nature and no two pieces are exactly alike. Each piece of stone has unique characteristics that include, but are not limited to: color variation, shading differences, fissures, pits, veining, and fossils, none of which are defects, rather they are inherent characteristics of natural stone.
- Most of our stone products come in a honed finish. Please note that specific stones react differently to the honing process depending on the hardness of that particular stone. As a result, some stones may show slight marks or sheen when exposed to certain reflective lighting. This is not considered a defect, but a natural characteristic due to the honing process.

- Due to the handmade nature of our glass tile, there will be variations in color, shade, texture and size. Frequently you may notice bubbles, wrinkles and folds, which are characteristics of a cast glass product.
- It is the responsibility of the customer to ensure that stone and glass products are blended properly to meet expectations. Any concerns should be addressed prior to installation.

GENERAL INSTALLATION GUIDELINES

- Select the installer or fabricator with consideration and care. It is recommended that you request referrals before choosing an installer. Be sure that the installer completely understands the scope of work and any special procedures that may be required. It is very important that installers and fabricators have specific experience with natural stone and glass products. It is also recommended that the customer supervise the installation of any of our products. Please be sure that all products are inspected prior to installation and any product issues are resolved prior to installation.
- It is extremely important that the substrate beneath, and pertaining to, shower walls and floors and concrete slab with stone and glass products has a waterproof membrane system installed properly prior to the installation of these products. Stone cannot spontaneously change color or damage itself. Any damage to a product will be a result of outside forces such as moisture. No claims will be accepted as a result of any installation that does not have a waterproof membrane system. It is the responsibility of the customer and installer to ensure that the proper moisture barrier system is in place.
- All of our stone and glass products are suitable for most interior residential uses. Several of our products are suitable for all interior applications including showers and countertops. Most of our products have been utilized for commercial applications, both interior and exterior use. We do not have ample test data to recommend any of our products for exterior use in a freeze and thaw environment. Please contact a Sales Representative for any questions or concerns regarding the application of our product.

CARE AND MAINTENANCE RECOMMENDATIONS

- Care should be taken to protect your stone and glass product. Cleaners that contain harsh abrasives should be avoided. Anything acidic or product containing ammonia and/or bleach may cause damage to the product. It is recommended that a neutral pH-balanced cleaner be used to care for your natural stone products. Please refer to the cleaner manufacturer's recommendations for any cleaning product used to care for your stone and glass products.
- All stone tiles and related products should be sealed using a penetrating sealer specifically for interior use prior to grouting to prevent the grout from staining the stone. Please refer to the sealing manufacturer's recommendations for application and use.
- Artistic Tile & Stone, Inc. does not recommend the use of sealer for exterior application of its stone products.
- For more information regarding cleaning and maintenance, please visit artistic tileandstone.com
